

### **Parking control notice**

We have unfortunately received complaints about the fact that this vehicle has been parked on the road without prior written permission from the Willowhayne Residents' Association.

As clearly displayed on the signage at the Willowhayne Estate entrances, parking on estate roads is not allowed. We ask that all vehicles be parked on property driveways rather than roads. This policy is aimed at protecting the safety and security of estate residents, especially the very young and the elderly.

A Parking control notice (PCN) scheme operates on the estate, and such notices will be issued to vehicles parked on estate roads without prior written permission. Residents and their visitors/contractors are not exempt from receiving PCNs. Should you continue to park this vehicle on the road, you may be liable to a PCN without further warning.

Thank you in anticipation of your co-operation in this matter.
